In-House, On-Demand Color Label Slitting

The Afinia Label Slitter longitudinally slits full-width (8.86"/225mm), pre-cut label stock, enabling you to use your label printer's full width and maximize its output. Print and rewind your labels, then use the Afinia Label Slitter to slit them at up to 197 feet/60 meters per minute.

The Afinia Label Slitter is perfect for applications requiring small labels, such as lip balm, health and beauty products, and ejuice.
